Author and Subject Indexes—Volume 26, 1991

Author Index

ABBRUZZESE JL, CARBONE PP: Adenocarcinoma of the liver without a detectable primary. 12:61
ABRASS IB*: Glucose intolerance of aging: implications for intervention. 4A:29
ADLER CH: Botulinum toxin A therapy in dystonia. 8:35
AGARWALA BN, LONDON R, HECHT AH: Febrile infant with respiratory distress. 3A:76
AHN SS*: Cocaine exposure in a newborn. 8:31
AKIYAMA T*: Reversible complete heart block. 10:51
ALTUS P*: Elderly woman with recurrent meningitis. 7:58
Shock in a woman with chronic pain. 4:37
ALTUS P, WEISSMAN MS, HENCEY MA: 73-year-old woman with confusion, rigidity, and fever. 6:97
ANDREOLI TE: Introduction: modern aspects of congestive heart failure. (editorial) 4:7
ANSARI A*: Tennis player with a swollen calf. 11:211
ANSARI A, LAXDAL S: Two patients and one problem. 2:111
ATTIE MF: Bisphosphonate therapy for osteoporosis. 3A:87
AVIOLI LV: Hyperparathyroidism, estrogens, and osteoporosis. 1:115
AYERS SM: Who decides when care is futile? 9A:41
BANITT P, ENG C: Radiculopathy in an elderly woman. 2A:40
BARINGER JR*: Neurologic presentations in Lyme disease. 11:55
BARTUSKA DG: Thyroid disease in the elderly. 12:85
BAZZI MN, CHANDRASEKAR P: Fever and a neck mass in a young man. 3:94
BAZZI MN, KATA S, DIXON S, KIM E: Hypoglycemia in an elderly woman. 10:177
BAZZI MN, KELLOGG C: Weakness, fatigue, and hyponatremia (×2). 11:43
BENDINER E *see PAST AND PRESENT*
BENNETT JS: Hypercoagulable state: new knowledge, new dilemmas. (editorial) 3A:
BERCZELLER PH: Fresh look at sinusitis and "bronchitis." 6:167
Malignant consultation syndrome. 9:29
BERGER HA, WELSH MJ: Electrolyte transport in the lungs. 3:53
BERNARDO J: Tuberculosis: a disease of the 1990s. 10:195
BLASER MJ*: *Helicobacter pylori* and duodenal ulceration. 2A:45
BODMER WF: Cancer genetics and the human genome. 10:101
BONE RC: Multiple system organ failure and the sepsis syndrome. 11:101
BOTSTEIN D: Why yeast? 10:157
BRILLA CG*: Myocardial remodeling and pathologic hypertrophy. 4:73
BRODERICK GA, SCHWARTZ S: Erectile dysfunction in diabetes. 8:139
BUCHTER CM, THAMES MD: Reflex control in heart failure: a primer for physicians. 6:119
BUKANTZ SC: AIDS: guidelines and deadlines. (editorial) 8:15
Asthma: the molecular light at the end of the tracheal tunnel. (editorial) 2:13
Max Samter rara avis. (editorial) 5:9

*Joint author

CAMINITI SP, YOUNG SL: Pulmonary surfactant system. 1:87
CARANASOS GJ, ISRAEL R: Gait disorders in the elderly. 6:67
CARBONE PP*: Adenocarcinoma of the liver without a detectable primary. 12:61
CARDELLO F*: Chest pain in a cancer patient on chemotherapy. 7:145
CASKEY CT: Physician-laboratory interface in X-chromosome mapping. 10:131
CASS RM, RICHESON JF, AKIYAMA T: Reversible complete heart block. 10:51
CHANDRASEKAR P*: Fever and a neck mass in a young man. 3:9
CHOLANKERIL J*: Case of the migrating embolic filter. 4:129
COHEN SG, SIROIS DA, SOLLECITO TP: Differentiation of intraoral ulcers. 5:101
COHN LH: Mitral valve surgery: replacement vs reconstruction. 8:49
COLLINS FS: Identification of disease genes: recent successes. 10:93
CONNOR CD: New measles epidemic. (editorial) 4A:8
CORNACCHIA LG, VIRDEN CP, WAHLSTROM HE: Meckel's diverticulum: another "great imitator." 4A:65
COTTRILL CM, ENGELBERG J: One child, two homes, two cultures. 8:123
COYLE PK, SCHUTZER SE, SANFORD JP, BARINGER JR: Neurologic presentations in Lyme disease. 11:55
CRYSTAL RG: α_1-Antitrypsin deficiency: pathgenesis and treatment. 2:81
CURD JG*: Radiating leg pain in the older patient. 3:61
DAVIS SF, HANCOCK EW: Slow pulse after head and neck surgery. 4:53
DAWOOD MM, TREBBIN WM: Complications associated with central venous cannulation. 6:211
DECKERS PJ, RICCI A Jr: Evolving strategies in operable breast cancer. 1. Noninvasive or occult malignancies. 9:103
Evolving strategies in operable breast cancer. 2. Palpable tumors. 9A:29
DIXON S*: Hypoglycemia in an elderly woman. 10:177
DOHERTY JU: Transtelephonic monitoring of sporadic arrhythmias. 5A:11
DOWELL M, MUSHER DM: An unusual cause of fever in a newborn infant. 12:40
DRACKER RA*: Child with spherocytic anemia. 6:29
DRUCE H: Nasal route for drug administration. 3A:19
DUCKWORTH WC: Intensive management of type II diabetes. 5A:65
EDGAR H*: AIDS, activism, and ethics. 7:135
EISEN HJ*: Pharmacologic thallium stress testing. 9A:62
EL-AMIR M*: Unilateral pulmonary edema in recurrent pneumothorax. 5:143
ENG C*: Radiculopathy in an elderly woman. 2A:40
ENGELBERG J*: One child, two homes, two cultures. 8:123
ENGLER DB, GRANT JA: Allergic rhinitis: a practical approach. 1:105

FEDERMAN DD: Hyperthyroidism in the geriatric population. 2:61
FEINBERG J, HOTH DF Jr: Current status of HIV therapy: II. Opportunistic diseases. 3:105
FELDMAN HI: Protein restriction in chronic renal failure. 6:220
FISHER DW: Farewell and hail! (editorial) 3:11
"In defence of doctors." (editorial) 6:12
Notes on the old year and new. (editorial) 12:8
Quarter century. (editorial) 9:9
"Remarkable" woman. (editorial) 7:9
Twisted arms and ethical choices. (editorial) 1:11
FITZPATRICK LA*: Mnemonics in clinical endocrinology. 5A:23
FLORES MA: Elderly woman with abdominal pain and vomiting. 5:72
FONTE CE: Caribbean traveler with diarrhea and abdominal distention. 1:163
FONTE CE, CARDELLO F: Chest pain in a cancer patient on chemotherapy. 7:145

GARSON A Jr: Sudden death in the young. 6:51
GASMAN JD*: Raynaud's disease: an update. 1:157
GERBERDING JL: Reducing occupational risk of HIV infection. 6:103
GILBERT ER, SHOCKET ID: Acute illness in an elderly man with aphasia. 6:229
GILBERT T, ANSARI A: Tennis player with a swollen calf. 11:211
GILBERT W: DNA sequencing, today and tomorrow. 10:165
GOLDENBERG K: Applying the science of disease prevention. (editorial) 2A:9
GOLDHABER SZ: Managing pulmonary embolism. 9:37
GOLDMAN GM: Clinical judgment: will HAL take over by 2001? (editorial) 5A:7
GOLDMANN DR: Steroid use in surgical patients. 9A:54
GRANT JA*: Allergic rhinitis: a practical approach. 1:105
GREENBERGER NJ: Decision making. (editorial) 11:9
GRESH JP*: Alopecia and rash in a chronically ill woman. 3A:47
GRIFFING GT, MELBY JC: Hirsutism: causes and treatments. 5A:43

HAFT RF, KASPER DL: Group B streptococcus infection in mother and child. 12:111
HANCOCK EW: Acute inferior injury: will it be reversible? 5:145
Extremely rapid ventricular rate in atrial fibrillation. 8:23
Extreme tachycardia in a kindergartner. 11:49
Large Q waves in aortic regurgitation. 12:139
Possible acute MI: what location and type? 6:62
Slow bigeminy in a cancer patient. 7:35
Supraventricular tachycardia in sepsis: what mechanism? 3:36
Tachycardia three months after a heart attack. 2:21
Type I or type II block? 10:61
Young woman with syncope and an abnormal ECG. 1:169
HANCOCK EW*: Slow pulse after head and neck surgery. 4:53
Syncope after cardioversion. 9:13
HANDSFIELD HH: Recent developments in STDs: I. Bacterial diseases. 7:47
HANNALLAH B, EL-AMIR M: Unilateral pulmonary edema in recurrent pneumothorax. 5:143

HARWARD MP: Evaluation of sexual dysfunction in women. 10:53
HECHT AH*: Febrile infant with respiratory distress. 3A:76
HENCEY MA*: 73-year-old woman with confusion, rigidity, and fever. 6:97
HOLMES KK: Changing epidemiology of HIV transmission. 11:153
HOMCY CJ: β-Adrenergic signaling pathway in the heart. 5:43
HOTH DF Jr*: Current status of HIV therapy: II. Opportunistic diseases. 3:105
HOTH DF Jr, MYERS MW: Current status of HIV therapy: I. Antiretroviral agents. 1:174
INOUYE SK: Recognition of delirium. 4A:61
ISBER N*: Postpartum bradycardia and hypotension. 9A:20
ISRAEL R*: Gait disorders in the elderly. 6:67
JAFFÉ ER: Chronic nonspherocytic hemolytic anemia and G6PD deficiency. 9:57
JANICKI JS*: Myocardial remodeling and pathologic hypertrophy. 4:73
JANTZ RD*: Aortic dissection: diagnosis and management. 2A:66
JENCKES GA III: "Classic case of Crohn's disease." 1:208
KAHN SE, SCHWARTZ RS, PORTE D Jr, ABRASS IB: Glucose intolerance of aging: implications for intervention. 4A:29
KASPER DL*: Group B streptococcus infection in mother and child. 12:111
KASSIRER JP, KOPELMAN RI *see CLINICAL PROBLEM SOLVING*
KATA S*: Hypoglycemia in an elderly woman. 10:177
KATZ AM: Energetics and the failing heart. 8:78
KATZ SD*: Peripheral circulatory response in cardiac failure. 9:75
KELLOGG C*: Weakness, fatigue, and hyponatremia (×2). 11:43
KELLY RA*: Therapeutic strategies for CHF in the 1990s. 11:127
KIM E*: Hypoglycemia in an elderly woman. 10:177
KIM J*: Muscle spasms and trismus in an alcoholic. 5:151
KING CH: Acute and chronic schistosomiasis. 3:117
KING M-C: Localization of the early-onset breast cancer gene. 10:121
KINNEY RO: Cardiac arrest in an on-call intern. 2:119
KLEIN MD: Atrial fibrillation: new findings about an old nemesis. 11:75
KOBAYASHI GS*: Systemic fungal infections: an overview. 2:41
KOFF WC: Prospects for AIDS vaccines. 4:99
KOPELMAN RI* *see CLINICAL PROBLEM SOLVING*

LaCOMBE MA: Art and the science of medicine. (essay) 4:111
LAKATTA EG: Excitation-contraction coupling in heart failure. 7:85
LAXDAL S*: Two patients and one problem. 2:111
LAZERSON J*: Cocaine exposure in a newborn. 8:31
LE CT: Back pain and weight loss in a man with a history of sepsis. 9:53
LEHMAN LB: Of dead brains, living wills, and autonomy. 1:39
LE JEMTEL TH, KATZ SD, SONNENBLICK EH: Peripheral circulatory response in cardiac failure. 9:75
LEVIN RM: Prevention of osteoporosis. 5:77
LIND CD, BLASER MJ: *Helicobacter pylori* and duodenal ulceration. 2A:45
LINDEMANN JP: Contractile protein alterations in heart failure. 12:47
LITAM PP, SMAHA LA: Ascites in a woman with chronic mitral stenosis. 5A:35
LONDON R*: Febrile infant with respiratory distress. 3A:76
LUNDIN AP: Recombinant erythropoietin and chronic renal failure. 4:61
LYNCH JH*: Penile cancer: curable with early detection. 6:131

MARUSH A*: Approach to the diagnosis of wide QRS tachycardias. 3A:50
MASOOD A*: Muscle spasms and trismus in an alcoholic. 5:151
MAUPIN K: Irritability and fever in a nine-week-old infant. 4A:40
McCRACKEN GH Jr*: Mediators of meningitis: therapeutic implications. 1:68
McCUE JD: Drug interchanges at the pharmacy: safe for cardiovascular disease? 7:23
McKUSICK VA: Genomic mapping and how it has progressed. 10:74
Human genome project and clinical medicine. (editorial) 10:15
MEADOWS AT: Follow-up and care of childhood cancer survivors. 2:99
MEDOFF G, KOBAYASHI GS: Systemic fungal infections: an overview. 2:41
MELBY JC*: Hirsutism: causes and treatments. 5A:43
MOAKE JL: Hypercoagulable states: new knowledge about old problems. 3A:31
MOORE ME*: An ill woman with SLE who got worse with treatment. 12:57
MOROWITZ HJ: On being an essayist. (essay) 2:123
Bioenergeticist's revenge. (essay) 9:20
Expertise. (essay) 10:29
How *mouse* became a verb. (essay) 11:16
Les Atomes. (essay) 3:45
Literati. (essay) 7:11
Litmus test. (essay) 1:13
MCATs, PCATs, AHPATs, VATs, DATs, OATs, and EESHRTs. (essay) 5:36
Planetary protection. (essay) 12:13
Potlatch. (essay) 6:21
Rocks. (essay) 4:14
Tubes. (essay) 8:157
MORRIS DC: Cocaine heart disease. 9:83
MULROW CD: Screening for hearing impairment in the elderly. 2A:79
MURPHY PJ, DRACKER RA: Child with spherocytic anemia. 6:29
MURRAY JF: New presentations of bronchiectasis. 3A:55
MUSHER DM*: Antibiotic-resistant pneumonia in a hemophiliac with AIDS. 1:81
An unusual cause of fever in a newborn infant. 12:40
MYERS MW*: Current status of HIV therapy: I. Antiretroviral agents. 1:174
NEERUKONDA SK, VIJAY NK, JANTZ RD, SCHOONMAKER FW, SAXENA AKR: Aortic dissection: diagnosis and management. 2A:66
NEJAT M*: Common disease and uncommon complications. 4:163
ODELL WD: Hypercalcemia of occult origin. 2A:31
OPPENHEIM EB: β-Blocker overdose in an LPN. 12:31
ORNISH D: Can life-style changes reverse coronary atherosclerosis? 5:123
PATEL A, CHOLANKERIL J: Case of the migrating embolic filter. 4:129
PATEL A, ISBER N, WEINER B: Postpartum bradycardia and hypotension. 9A:20
PATEL A, MASOOD A, KIM J: Muscle spasms and trismus in an alcoholic. 5:151
PELLER C*: Acute diverticulitis: diagnosis and management. 3:83
PLAWES S*: Approach to the diagnosis of wide QRS tachycardias. 3A:50
PORTE D Jr*: Glucose intolerance of aging: implications for intervention. 4A:29
RAFFIN TA: Withholding and withdrawing life support. 3:133
RAVETZ LA: Severe flank pain in an intravenous user of cocaine. 11:91
REVES RR, MUSHER DM: Antibiotic-resistant pneumonia in a hemophiliac with AIDS. 1:81
RICCI A Jr*: Evolving strategies in operable breast cancer. 1. Noninvasive or occult malignancies. 9:103
Evolving strategies in operable breast cancer. 2. Palpable tumors. 9A:29
RICHESON JF*: Reversible complete heart block. 10:51
RIDGEWAY W, HANCOCK EW: Syncope after cardioversion. 9:13
ROTHMAN DJ, EDGAR H: AIDS, activism, and ethics. 7:135
ROTOLO JE, LYNCH JH: Penile cancer: curable with early detection. 6:131
SÁEZ-LLORENS X, McCRACKEN GH Jr: Mediators of meningitis: therapeutic implications. 1:68
SANFORD JP*: Neurologic presentations in Lyme disease. 11:55
SAXENA AKR*: Aortic dissection: diagnosis and management. 2A:66
SCHINDLER AM: Seven-year-old girl with pubic hair: premature adrenarche or not? 1:53
SCHOONMAKER FW*: Aortic dissection: diagnosis and management. 2A:66
SCHUTZER SE*: Neurologic presentations in Lyme disease. 11:55
SCHWARTZ MB, EISEN HJ: Pharmacologic thallium stress testing. 9A:62
SCHWARTZ RH: Drug reform: the Dutch experience. 5A:93
SCHWARTZ RS*: Glucose intolerance of aging: implications for intervention. 4A:29
SCHWARTZ S*: Erectile dysfunction in diabetes. 8:139
SHOCKET ID*: Acute illness in an elderly man with aphasia. 6:229
SIROIS DA*: Differentiation of intraoral ulcers. 5:101
SMAHA LA*: Ascites in a woman with chronic mitral stenosis. 5A:35
SMALLY AJ: Man with a rapid decline in ventilatory status. 4A:89
SMITH TW, KELLY RA: Therapeutic strategies for CHF in the 1990s. 11:127
SNYDER JD: Oral therapy for diarrhea. 5A:86
SOLLECITO TP*: Differentiation of intraoral ulcers. 5:101
SOLOMON S: Migraine: current approaches to diagnosis and management. 4:141
SONNENBLICK EH*: Peripheral circulatory response in cardiac failure. 9:75
STASZEWSKI H: Vitamin-resistant anemia in a young woman. 9A:91
STILLMAN AE: Endoscopy in upper GI bleeding. 2A:17
STONE KE, MOORE ME: An ill woman with SLE who got worse with treatment. 12:57
SWEENEY PJ: New concepts in Parkinson's disease. 4:84
SYNDER HM III: To circumcise or not. 1:201

THAMES MD*: Reflex control in heart failure: a primer for physicians. 6:119
THORNE RP, CURD JG: Radiating leg pain in the older patient. 3:61
TICHENOR GA, AHN SS, LAZERSON J: Cocaine exposure in a newborn. 8:31
TOOGOOD JH: Inhaled steroids for chronic asthma. 4A:15
TORRES C, ALTUS P: Shock in a woman with chronic pain. 4:37
TRAUBE C, MARUSH A, PLAWES S: Approach to the diagnosis of wide QRS tachycardias. 3A:50

*Joint author

TREBBIN WM*: Complications associated with central venous cannulation. 6:211
TURCIOS NL, NEJAT M: Common disease and uncommon complications. 4:163

VAN NESS M, PELLER C: Acute diverticulitis: diagnosis and management. 3:83
VARON J, GASMAN JD: Raynaud's disease: an update. 1:157
VIJAY NK*: Aortic dissection: diagnosis and management. 2A:66
VIRDEN CP*: Meckel's diverticulum: another "great imitator." 4A:65

WAHLSTROM HE*: Meckel's diverticulum: another "great imitator." 4A:65
WALLACH PM, ALTUS P: Elderly woman with recurrent meningitis. 7:58
WARNER EA, GRESH JP: Alopecia and rash in a chronically ill woman. 3A:47
WATSON JD: Human genome initiative: a statement of need. 10:69
WEBB CW: THE MAD PHYSICIAN and hypercalcemia. (letter) 3:13
WEBER KT, BRILLA CG, JANICKI JS: Myocardial remodeling and pathologic hypertrophy. 4:73
WEINER B*: Postpartum bradycardia and hypotension. 9A:20
WEINER SR: Young boy with a limp. 10:228
WEINTRAUB LR: Many faces of hemochromatosis. 4A:49
WEISSE AB: Anemia called pernicious. (essay) 11:25
Beyond the bench: a vote for clinical investigation. (essay) 4:40
Into the heart (essay) 12:149
Long pause: the discovery and rediscovery of penicillin. (essay) 8:93
Mercury finally "makes it." (essay) 10:233
Sparks: life-giving electricity. (essay) 9A:73
"Why do they turn yellow?" (essay) 6:175
WEISSMAN MS*: 73-year-old woman with confusion, rigidity, and fever. 6:97
WEISSMANN G: Actions of NSAIDs. 8:60
WELLER TH: International health and a changing human ecology. (essay) 10:41
WELSH MJ*: Electrolyte transport in the lungs. 3:53
WERNICK R*: Subcutaneous nodules in a diabetic woman. 4:121
WESSELY S: Are there symptoms of low blood pressure? (editorial) 9A:8
WEXLER NS: Disease gene identification: ethical considerations. 10:145
WIGLEY FM: Differential diagnosis of Raynaud's phenomenon. 7:63
WILFERT CM: HIV infection in maternal and pediatric patients. 5:55
WINKLER C, WERNICK R: Subcutaneous nodules in a diabetic woman. 4:121
WYNNE AG, FITZPATRICK LA: Mnemonics in clinical endocrinology. 5A:23

YOUNG SL*: Pulmonary surfactant system. 1:87

Subject Index

A

ABSCESSES
Back pain and weight loss in a man with a history of sepsis. Le, 9:53
ACE INHIBITORS
in Peripheral circulatory response in cardiac failure. Le Jemtel, Katz, Sonnenblick, 9:79
in Therapeutic strategies for CHF in the 1990s. Smith, Kelly, 11:131
ADDICTION AND ALCOHOLISM
Changing epidemiology of HIV transmission. Holmes, 11:153
Cocaine exposure in a newborn. Tichenor, Ahn, Lazerson, 8:31
Cocaine heart disease. Morris, 9:83. *See also* letter 12:9
Drug reform: the Dutch experience. Schwartz, 5A:93. *See also* letter 10:21
Muscle spasms and trismus in an alcoholic. Patel, Masood, Kim, 5:151
Reversible complete heart block. Cass, Richeson, Akiyama, 10:51
Severe flank pain in an intravenous user of cocaine. Ravetz, 11:91
ADRENAL HYPERPLASIA, CONGENITAL
Seven-year-old girl with pubic hair: premature adrenarche or not? Schindler, 1:53
ADULT RESPIRATORY DISTRESS SYNDROME
in Multiple system organ failure and the sepsis syndrome. Bone, 11:114
AIDS: PROBLEMS AND PROSPECTS
AIDS, activism, and ethics. Rothman, Edgar, 7:135
Changing epidemiology of HIV transmission. Holmes, 11:153
Current status of HIV therapy: I. Antiretroviral agents. Hoth, Myers, 1:174
Current status of HIV therapy: II. Opportunistic diseases. Feinberg, Hoth, 3:105
HIV infection in maternal and pediatric patients. Wilfert, 5:55
Prospects for AIDS vaccines. Koff, 4:99
Reducing occupational risk of HIV infection. Gerberding, 6:103
ALLERGY *see also* ASTHMA
Allergic rhinitis: a practical approach. Engler, Grant, 1:105
AMPHETAMINES
Evaluating the sleepy patient. Varon, Jones, 10A:55 (1990). *See also* letter 2A:12 (1991)
ANEMIA
Anemia called pernicious. Weisse, 11:25
Child with spherocytic anemia. Murphy, Dracker, 6:29
Chronic nonspherocytic hemolytic anemia and G6PD deficiency. Jaffé, 9:57
Vitamin-resistant anemia in a young woman. Staszewski, 9A:91
ANTICOAGULANT THERAPY
Hypercoagulable states: new knowledge about old problems. Moake, 3A:31
in Managing pulmonary embolism. Goldhaber, 9:43
ANTI-INFLAMMATORY THERAPY
in Mediators of meningitis: therapeutic implications. Sáez-Llorens, McCracken, 1:73
ANTIMICROBIAL THERAPY
Antibiotic-resistant pneumonia in a hemophiliac with AIDS. Reves, Musher, 1:81
in Group B streptococcus infection in mother and child. Haft, Kasper, 12:111
ANTIRETROVIRAL AGENTS
Current status of HIV therapy: I. Antiretroviral agents. Hoth, Myers, 1:174
AORTIC DISSECTION
Aortic dissection: diagnosis and management. Neerukonda, Vijay, Jantz, Schoonmaker, Saxena, 2A:66
APPENDICITIS
Acute illness in an elderly man with aphasia. Gilbert, Shocket, 6:229
ARRHYTHMIAS *see also ECG CASEBOOK*
Approach to the diagnosis of wide QRS tachycardias. Traube, Marush, Plawes, 3A:50. *See also* letter 6:18
in Atrial fibrillation: new findings about an old nemesis. Klein, 11:75
Sudden death in the young. Garson, 6:51. *See also* letter 9:10
Transtelephonic monitoring of sporadic arrhythmias. Doherty, 5A:11
ARTHRITIS
in Gait disorders in the elderly. Caranasos, Israel, 6:82
ASPERGILLOSIS
in Systemic fungal infections: an overview. Medoff, Kobayashi, 2:51
ASPIRIN
Actions of NSAIDs. Weissmann, 8:60
ASTHMA
Asthma: the molecular light at the end of the tracheal tunnel. (editorial) Bukantz, 2:13
Asthma mortality: it needs a WHAM-TF. Bukantz, 10:10 (1990). *See also* letters 2:17, 4A:14 (1991)
Inhaled steroids for chronic asthma. Toogood, 4A:15
ATP
in Energetics and the failing heart. Katz, 8:80
AUTOIMMUNE DISORDERS *see* IMMUNOLOGIC DISORDERS

B

BILIARY DISORDERS
Elderly woman with abdominal pain and vomiting. Flores, 5:72
BLASTOMYCOSIS
in Systemic fungal infections: an overview. Medoff, Kobayashi, 2:47
β-BLOCKERS
in Acute inferior injury: will it be reversible? Hancock, 5:146
in β-Adrenergic signaling pathway in the heart. Homcy, 5:50
in Atrial fibrillation: new findings about an old nemesis. Klein, 11:85
β-Blocker overdose in an LPN. Oppenheim, 12:31
in Therapeutic strategies for CHF in the 1990s. Smith, Kelly, 11:150
BONE AND JOINT DISORDERS *see also* OSTEOPOROSIS
Bisphosphonate therapy for osteoporosis. Attie, 3A:87
Radiating leg pain in the older patient. Thorne, Curd, 3:61. *See also* letters 6:18, 9:10
Severe flank pain in an intravenous user of cocaine. Ravetz, 11:91
Young boy with a limp. Weiner, 10:228
BOTULINUM TOXIN A THERAPY
Botulinum toxin A therapy in dystonia. Adler, 8:35

*Joint author

BREAST CANCER
Evolving strategies in operable breast cancer. 1. Noninvasive or occult malignancies. Deckers, Ricci, 9:103
Evolving strategies in operable breast cancer. 2. Palpable tumors. Deckers, Ricci, 9A:29
Localization of the early-onset breast cancer gene. King, 10:121
BRONCHIECTASIS
New presentations of bronchiectasis. Murray, 3A:55

C

CALCIUM
in Energetics and the failing heart. Katz, 8:81
Excitation-contraction coupling in heart failure. Lakatta, 7:85
Shock in a woman with chronic pain. Torres, Altus, 4:37
CALCIUM CHANNEL BLOCKERS
in Atrial fibrillation: new findings about an old nemesis. Klein, 11:85
in Drug interchanges at the pharmacy: safe for cardiovascular disease? McCue, 7:24
CANCER THERAPY
in Adenocarcinoma of the liver without detectable primary. Abbruzzese, Carbone, 12:73
Chest pain in a cancer patient on chemotherapy. Fonte, Cardello, 7:145
CANDIDIASIS
in Systemic fungal infections: an overview. Medoff, Kobayashi, 2:50
CANNULATION, CENTRAL VENOUS
Complications associated with central venous cannulation. Dawood, Trebbin, 6:211
CARDIOVERSION
in Atrial fibrillation: new findings about an old nemesis. Klein, 11:86
CAT-SCRATCH DISEASE
Fever and a neck mass in a young man. Bazzi, Chandrasekar, 3:94
CEREBRAL PALSY
An appeal to patients with cerebral palsy. (letter) Frazier, 3A:16
CHANCROID
in Recent developments in STDs: I. Bacterial diseases. Handsfield, 7:55
CHLAMYDIAL INFECTIONS
in Recent developments in STDs: I. Bacterial diseases. Handsfield, 7:53
CLINICAL ESSAYS
Fresh look at sinusitis and "bronchitis." Berczeller, 6:167. *See also* letters 8:19, 9A:19
Malignant consultation syndrome. Berczeller, 9:29. *See also* letter 11:11
CLINICAL PROBLEM SOLVING (Kassirer, Kopelman)
Accuracy of clinical information: 1. The history. 4:21
Accuracy of clinical information: 2. The physical examination. 5:17
Cases that teach clinical reasoning. 1:29
Diagnosis and the structure of memory: 3. The nature of categories. 2:29
Diagnosis and the structure of memory: 4. The power of reminding. 3:29. *See also* letters 5:12, 6:18
Diagnosis and the structure of memory: 5. Planning. 6:33
Farewell and hail! (editorial) Fisher, 3:11. *See also* letter 5:12
CLINICAL SKILLS EXCHANGE
Nasal route for drug administration. Druce, 3A:19
Recognition of delirium. Inouye, 4A:61
COCCIDIOIDOMYCOSIS
in Systemic fungal infections: an overview. Medoff, Kobayashi, 2:42
CONGENITAL ANOMALIES AND DISORDERS
Febrile infant with respiratory distress. Agarwala, London, Hecht, 3A:76
in Sudden death in the young. Garson, 6:55. *See also* letter 9:10
CRYPTOCOCCAL INFECTION
in Systemic fungal infections: an overview. Medoff, Kobayashi, 2:49
CYSTIC FIBROSIS
in Disease gene identification: ethical considerations. Wexler, 10:148
Electrolyte transport in the lungs. Berger, Welsh, 3:53

D

DECISION MAKING IN MEDICINE
Adenocarcinoma of the liver without detectable primary. Abbruzzese, Carbone, 12:61
Neurologic presentations in Lyme disease. Coyle, Schutzer, Sanford, Baringer, 11:55
DELIRIUM
Recognition of delirium. Inouye, 4A:61
DEPRENYL
in New concepts in Parkinson's disease. Sweeney, 4:91
DEPRESSION
Evaluating the sleepy patient. Varon, Jones, 10A:55 (1990). *See also* letter 2A:12 (1991)
DIABETES
Erectile dysfunction in diabetes. Broderick, Schwartz, 8:139
Glucose intolerance of aging: implications for intervention. Kahn, Schwartz, Porte, Abrass, 4A:29
Intensive management of type II diabetes. Duckworth, 5A:65
DIAGNOSTIC TECHNIQUES *see also CLINICAL PROBLEM SOLVING*; HISTORY TAKING; IMAGING TECHNIQUES; TESTING AND SCREENING; *WHEN TO REFER*
in Allergic rhinitis: a practical approach. Engler, Grant, 1:106
Evolving strategies in operable breast cancer. 1. Noninvasive or occult malignancies. Deckers, Ricci, 9:103
Evolving strategies in operable breast cancer. 2. Palpable tumors. Deckers, Ricci, 9A:29
Mnemonics in clinical endocrinology. Wynne, Fitzpatrick, 5A:23
Transtelephonic monitoring of sporadic arrhythmias. Doherty, 5A:11
DIARRHEA
Oral therapy for diarrhea. Snyder, 5A:86
DIET
Can life-style changes reverse coronary atherosclerosis? Ornish, 5:123
in Glucose intolerance of aging: implications for intervention. Kahn, Schwartz, Porte, Abrass, 4A:36
Protein restriction in chronic renal failure. Feldman, 6:220
DIGOXIN
in Atrial fibrillation: new findings about an old nemesis. Klein, 11:85
DIPYRIDAMOLE
Pharmacologic thallium stress testing. Schwartz, Eisen, 9A:62
DIURETICS
in Therapeutic strategies for CHF in the 1990s. Smith, Kelly, 11:129
DIVERTICULITIS
Acute diverticulitis: diagnosis and management. Van Ness, Peller, 3:83. *See also* letter 4A:14
DNA SEQUENCING
DNA sequencing, today and tomorrow. Gilbert, 10:165
DUCHENNE-TYPE MUSCULAR DYSTROPHY
in Physician-laboratory interface in X-chromosome mapping. Caskey, 10:137
DYSTONIA
Botulinum toxin A therapy in dystonia. Adler, 8:35

E

EAR, NOSE, AND THROAT DISORDERS
Fresh look at sinusitis and "bronchitis." Berczeller, 6:167. *See also* letters 8:19, 9A:19
ECG CASEBOOK
Acute inferior injury: will it be reversible? Hancock, 5:145
Extremely rapid ventricular rate in atrial fibrillation. Hancock, 8:23
Extreme tachycardia in a kindergartner. Hancock, 11:49
Large Q waves in aortic regurgitation. Hancock, 12:139
Possible acute MI: what location and type? Hancock, 6:62
Slow bigeminy in a cancer patient. Hancock, 7:35
Slow pulse after head and neck surgery. Davis, Hancock, 4:53
Supraventricular tachycardia in sepsis: What mechanism? Hancock, 3:36
Syncope after cardioversion. Ridgeway, Hancock, 9:13
Tachycardia three months after a heart attack. Hancock, 2:21
Type I or type II block? Hancock, 10:61
Young woman with syncope and an abnormal ECG. Hancock, 1:169
EDITORIALS
AIDS: guidelines and deadlines. Bukantz, 8:15. *See also* letters 11:11
Applying the science of disease prevention. Goldenberg, 2A:9
Are there symptoms of low blood pressure? Wessely, 9A:8
Asthma: the molecular light at the end of the tracheal tunnel. Bukantz, 2:13
Asthma mortality: it needs a WHAM-TF. Bukantz, 10:10 (1990). *See also* letters 2:17, 4A:14 (1991)
And the children. Fisher, 12:10 (1990). *See also* letters 2:17 (1991)
Clinical judgment: will HAL take over by 2001? Goldman, 5A:7
Commemoration and a dedication. 10:15
Decision making. Greenberger, 11:9
Farewell and hail! Fisher, 3:11. *See also* letter 5:12
Human genome project and clinical medicine. McKusick, 10:15
Hypercoagulable state: new knowledge, new dilemmas. Bennett, 3A:8
"In defence of doctors." Fisher, 6:12
Introduction: modern aspects of congestive heart failure. Andreoli, 4:7
Max Samter—rara avis. Bukantz, 5:9. *See also* letter 11:11
New measles epidemic. Connor, 4A:8
Notes on the old year and new. Fisher, 12:8
Quarter century. Fisher, 9:9
"Remarkable" woman. Fisher, 7:9
Twisted arms and ethical choices. Fisher, 1:11. *See also* letter 3:13
ELECTROLYTES
Electrolyte transport in the lungs. Berger, Welsh, 3:53

EMPHYSEMA
α_1-Antitrypsin deficiency: pathogenesis and treatment. Crystal, 2:81
ENDOCRINOLOGIC DISORDERS *see also* DIABETES; OSTEOPOROSIS
Hirsutism: causes and treatments. Griffing, Melby, 5A:43
Hypercalcemia of occult origin. Odell, 2A:31
Hyperparathyroidism, estrogens, and osteoporosis. Avioli, 1:115
Hyperthyroidism in the geriatric population. Federman, 2:61. *See also* letters 4:13
in Many faces of hemochromatosis. Weintraub, 4A:55. *See also* letter 9A:19
Mnemonics in clinical endocrinology. Wynne, Fitzpatrick, 5A:23
Myocardial remodeling and pathologic hypertrophy. Weber, Brilla, Janicki, 4:73
Recombinant erythropoietin and chronic renal failure. Lundin, 4:61
Seven-year-old girl with pubic hair: premature adrenarche or not? Schindler, 1:53
Thyroid disease in the elderly. Bartuska, 12:85
Weakness, fatigue, and hyponatremia (×2). Bazzi, Kellogg, 11:43
ENZYME DEFICIENCIES
Hirsutism: causes and treatments. Griffing, Melby, 5A:43
EPIDEMIOLOGY
Changing epidemiology of HIV transmission. Holmes, 11:153
Reducing occupational risk of HIV infection. Gerberding, 6:103
EPSTEIN-BARR VIRUS
Common disease and uncommon complications. Turcios, Nejat, 4:163. *See also* letter 5A:30
ERYTHROPOIETIN
Recombinant erythropoietin and chronic renal failure. Lundin, 4:61
ESOPHAGEAL DISORDERS
Endoscopy in upper GI bleeding. Stillman, 2A:17

ESSAYS
Anemia called pernicious. Weisse, 11:25
Art and the science of medicine. LaCombe, 4:111
On being an essayist. Morowitz, 2:123
Beyond the bench: a vote for clinical investigation. Weisse, 4:40
Bioenergeticist's revenge. Morowitz, 9:20.
Expertise. Morowitz, 10:29
How *mouse* became a verb. Morowitz, 11:16
International health and a changing human ecology. Weller, 10:41
Into the heart. Weisse, 12:149
Les Atomes. Morowitz, 3:45
Literati. Morowitz, 7:11
Litmus test. Morowitz, 1:13
Long pause: the discovery and rediscovery of penicillin. Weisse, 8:93
MCATs, PCATs, AHPATs, VATs, DATs, OATs, and EESHRTs. Morowitz, 5:36
Mercury finally "makes it." Weisse, 10:233
Planetary protection. Morowitz, 12:13
Potlatch. Morowitz, 6:21
Rocks. Morowitz, 4:14
Sparks: life-giving electricity. Weisse, 9A:73
Tubes. Morowitz, 8:157
"Why do they turn yellow?" Weisse, 6:175
ESTROGEN REPLACEMENT THERAPY
Hyperparathyroidism, estrogens, and osteoporosis. Avioli, 1:115
in Prevention of osteoporosis. Levin, 5:91. *See also* letter 9A:19
ETHICS, MEDICAL
AIDS, activism, and ethics. Rothman, Edgar, 7:135
Of dead brains, living wills, and autonomy. Lehman, 1:39
Disease gene identification: ethical considerations. Wexler, 10:145
"In defense of doctors." (editorial) Fisher, 6:12
Who decides when care is futile? Ayers, 9A:41
Withholding and withdrawing life support. Raffin, 3:133
EUTHYROID SICK SYNDROME
in Thyroid disease in the elderly. Bartuska, 12:85
EXERCISE
Can life-style changes reverse coronary atherosclerosis? Ornish, 5:123
Sudden death in the young. Garson, 6:51. *See also* letter 9:10

F

FAMILIAL DISORDERS *see* GENETICS, MEDICAL
FRAGILE X SYNDROME
Physician-laboratory interface in X-chromosome mapping. Caskey, 10:131
FUNGAL INFECTIONS
Back pain and weight loss in a man with a history of sepsis. Le, 9:53
Systemic fungal infections: an overview. Medoff, Kobayashi, 2:41

G

GAIT DISORDERS
Gait disorders in the elderly. Caranasos, Israel, 6:67
GASTROINTESTINAL DISORDERS *see also* APPENDICITIS; DIARRHEA; ULCERS
Acute diverticulitis: diagnosis and management. Van Ness, Peller, 3:83. *See also* letter 4A:14
Caribbean traveler with diarrhea and abdominal distention. Fonte, 1:163
Cases that teach clinical reasoning. Kassirer, Kopelman, 1:29
"Classic case of Crohn's disease." Jenckes, 1:208. *See also* letter 5A:30
Elderly woman with abdominal pain and vomiting. Flores, 5:72
Meckel's diverticulum: another "great imitator." Cornacchia, Virden, Wahlstrom, 4A:65
Two patients and one problem. Ansari, Laxdal, 2:111
Vitamin-resistant anemia in a young woman. Staszewski, 9A:91
GENE THERAPY
in α_1-Antitrypsin deficiency: pathogenesis and treatment. Crystal, 2:93
GENETICS, MEDICAL
α_1-Antitrypsin deficiency: pathogenesis and treatment. Crystal, 2:81
Cancer genetics and the human genome. Bodmer, 10:101
Chronic nonspherocytic hemolytic anemia and G6PD deficiency. Jaffé, 9:57
Disease gene identification: ethical considerations. Wexler, 10:145
DNA sequencing, today and tomorrow. Gilbert, 10:165
Genomic mapping and how it has progressed. McKusick, 10:74
Human genome initiative: a statement of need. Watson, 10:69
Identification of disease genes: recent successes. Collins, 10:93
Localization of the early-onset breast cancer gene. King, 10:121
Physician-laboratory interface in X-chromosome mapping. Caskey, 10:131
Why yeast? Botstein, 10:157
GERIATRICS
Acute illness in an elderly man with aphasia. Gilbert, Shocket, 6:229
Gait disorders in the elderly. Caranasos, Israel, 6:67
Glucose intolerance of aging: implications for intervention. Kahn, Schwartz, Porte, Abrass, 4A:29
Hyperparathyroidism, estrogens and osteoporosis. Avioli, 1:115
Hyperthyroidism in the geriatric population. Federman, 2:61. *See also* letters 4:13
Prevention of osteoporosis. Levin, 5:77. *See also* letter 9A:19
Radiating leg pain in the older patient. Thorne, Curd, 3:61. *See also* letters 6:18, 9:10
Recognition of delirium. Inouye, 4A:61
Screening for hearing impairment in the elderly. Mulrow, 2A:79
Thyroid disease in the elderly. Bartuska, 12:85
GLUCOSE INTOLERANCE
Glucose intolerance of aging: implications for intervention. Kahn, Schwartz, Porte, Abrass, 4A:29
GLUCOSE-6-PHOSPHATE DEHYDROGENASE DEFICIENCY
Chronic nonspherocytic hemolytic anemia and G6PD deficiency. Jaffé, 9:57
GONORRHEA
in Recent developments in STDs: I. Bacterial diseases. Handsfield, 7:49
GOUT
Subcutaneous nodules in a diabetic woman. Winkler, Wernick, 4:121
G PROTEIN
in Actions of NSAIDs. Weissmann, 8:68
β-Adrenergic signaling pathway in the heart. Homcy, 5:43
GYNECOLOGIC DISORDERS
Ascites in a woman with chronic mitral stenosis. Litam, Smaha, 5A:35
Evaluation of sexual dysfunction in women. Harward, 10:53
in Hirsutism: causes and treatments. Griffing, Melby, 5A:48

H

HEADACHE
Migraine: current approaches to diagnosis and management. Solomon, 4:141
HEALTH CARE *see also CLINICAL ESSAYS*
AIDS, activism, and ethics. Rothman, Edgar, 7:135
AIDS: guidelines and deadlines. Bukantz, 8:15. *See also* letters 11:11
Applying the science of disease prevention. (editorial) Goldenberg, 2A:9
And the children. (editorial) Fisher, 12:10 (1990). *See also* letters 2:17 (1991)
Clinical judgment: will HAL take over by 2001? (editorial) Goldman, 5A:7
Drug reform: the Dutch experience. Schwartz, 5A:93. *See also* letter 10:21
Follow-up and care of childhood cancer survivors. Meadows, 2:99
"In defence of doctors." (editorial) Fisher, 6:12
International health and a changing human ecology. (essay) Weller, 10:41

One child, two homes, two cultures. Cottrill, Engelberg, 8:123
Reducing occupational risk of HIV infection. Gerberding, 6:103
Twisted arms and ethical choices. (editorial) Fisher, 1:11. *See also* letter 3:13
Who decides when care is futile? Ayers, 9A:41
Withholding and withdrawing life support. Raffin, 3:133

HEARING DISORDERS
Screening for hearing impairment in the elderly. Mulrow, 2A:79

HEART DISORDERS *see also* ARRHYTHMIAS; *ECG CASEBOOK; PHYSIOLOGY IN MEDICINE: MODERN ASPECTS OF CONGESTIVE HEART FAILURE*
Accuracy of clinical information: 2. The physical examination. Kassirer, Kopelman, 5:17
Atrial fibrillation: new findings about an old nemesis. Klein, 11:75
Can life-style changes reverse coronary atherosclerosis? Ornish, 5:123
Cocaine heart disease. Morris, 9:83. *See also* letter 12:9
Drug interchanges at the pharmacy: safe for cardiovascular disease? McCue, 7:23
Large Q waves in aortic regurgitation. Hancock, 12:139
in Many faces of hemochromatosis. Weintraub, 4A:52. *See also* letter 9A:19
Mitral valve surgery: replacement vs reconstruction. Cohn, 8:49
Pharmacologic thallium stress testing. Schwartz, Eisen, 9A:62
Reversible complete heart block. Cass, Richeson, Akiyama, 10:51
Sparks: life-giving electricity. Weisse, 9A:73
Sudden death in the young. Garson, 6:51. *See also* letter 9:10
in Thyroid disease in the elderly. Bartuska, 12:85

HEMATOLOGIC DISORDERS *see also* ANEMIA; PHLEBOTOMY
Hypercoagulable state: new knowledge, new dilemmas. (editorial) Bennett, 3A:8
Hypercoagulable states: new knowledge about old problems. Moake, 3A:31
Recombinant erythropoietin and chronic renal failure. Lundin, 4:61

HEMOCHROMATOSIS
Many faces of hemochromatosis. Weintraub, 4A:49. *See also* letter 9A:19

HEPATITIS *see* LIVER DISORDERS

HICCUPS
Diagnosis and the structure of memory: 4. The power of reminding. Kassirer, Kopelman, 3:29. *See also* letters 5:12, 6:18

HIRSUTISM
Hirsutism: causes and treatments. Griffing, Melby, 5A:43

HISTOPLASMOSIS
in Systemic fungal infections: an overview. Medoff, Kobayashi, 2:44

HISTORY TAKING
Accuracy of clinical information: 1. The history. Kassirer, Kopelman, 4:21
Evaluation of sexual dysfunction in women. Harward, 10:53

HIV *see also AIDS: PROBLEMS AND PROSPECTS*
AIDS: guidelines and deadlines. Bukantz, 8:15. *See also* letters 11:11
Antibiotic-resistant pneumonia in a hemophiliac with AIDS. Reves, Musher, 1:81
in To circumcise or not. Synder, 1:207
HIV infection in maternal and pediatric patients. Wilfert, 5:55
Tuberculosis: a disease of the 1990s. Bernardo, 10:195

HUMAN GENOME PROJECT *see* GENETICS, MEDICAL

HUNTINGTON'S DISEASE
in Disease gene identification: ethical considerations. Wexler, 10:146

HYPERCALCEMIA
Hypercalcemia of occult origin. Odell, 2A:31
THE MAD PHYSICIAN and hypercalcemia. (letter) Webb, 3:13

HYPERKALEMIA
Slow pulse after head and neck surgery. Davis, Hancock, 4:53

HYPERPARATHYROIDISM
Hypercalcemia of occult origin. Odell, 2A:31
Hyperparathyroidism, estrogens, and osteoporosis. Avioli, 1:115

HYPERTENSION
Aortic dissection: diagnosis and management. Neerukonda, Vijay, Jantz, Schoonmaker, Saxena, 2A:66
Myocardial remodeling and pathologic hypertrophy. Weber, Brilla, Janicki, 4:73

HYPERTHYROIDISM *see* ENDOCRINOLOGIC DISORDERS

HYPERTROPHY
Contractile protein alterations in heart failure. Lindemann, 12:47
Myocardial remodeling and pathologic hypertrophy. Weber, Brilla, Janicki, 4:73

HYPOGLYCEMIA
Hypoglycemia in an elderly woman. Bazzi, Kata, Dixon, Kim, 10:177

HYPONATREMIA *see* SODIUM

HYPOTENSION
Are there symptoms of low blood pressure? (editorial) Wessely, 9A:8

I

IATROGENIC DISORDERS
Accuracy of clinical information: 1. The history. Kassirer, Kopelman, 4:21
Chest pain in a cancer patient on chemotherapy. Fonte, Cardello, 7:145
Complications associated with central venous cannulation. Dawood, Trebbin, 6:211
Diagnosis and the structure of memory: 4. The power of reminding. Kassirer, Kopelman, 3:29. *See also* letters 5:12, 6:18
Ill woman with SLE who got worse with treatment. Stone, Moore, 12:57
Postpartum bradycardia and hypotension. Patel, Isber, Weiner, 9A:20
Shock in a woman with chronic pain. Torres, Altus, 4:37
Slow bigeminy in a cancer patient. Hancock, 7:35
Slow pulse after head and neck surgery. Davis, Hancock, 4:53
in Therapeutic strategies for CHF in the 1990s. Smith, Kelly, 11:132
73-year-old woman with confusion, rigidity, and fever. Altus, Weissman, Hencey, 6:97

IMAGING TECHNIQUES
in Aortic dissection: diagnosis and management. Neerukonda, Vijay, Jantz, Schoonmaker, Saxena, 2A:70
Endoscopy in upper GI bleeding. Stillman, 2A:17
in Managing pulmonary embolism. Goldhaber, 9:39
Pharmacologic thallium stress testing. Schwartz, Eisen, 9A:62

IMMUNOLOGIC DISORDERS *see also AIDS: PROBLEMS AND PROSPECTS*; ALLERGY; ANTI-INFLAMMATORY THERAPY; ASTHMA; VACCINATION
Alopecia and rash in a chronically ill woman. Warner, Gresh, 3A:47
Child with spherocytic anemia. Murphy, Dracker, 6:29
in Thyroid disease in the elderly. Bartuska, 12:85

IMMUNOTHERAPY

Nasal route for drug administration. Druce, 3A:19

NEONATOLOGY *see* PEDIATRICS

NEOPLASMS
Adenocarcinoma of the liver without detectable primary. Abbruzzese, Carbone, 12:61
Ascites in a woman with chronic mitral stenosis. Litam, Smaha, 5A:35
Cancer genetics and the human genome. Bodmer, 10:101
"Classic case of Crohn's disease." Jenckes, 1:208. *See also* letter 5A:30
Diagnosis and the structure of memory: 5. Planning, Kassirer, Kopelman, 6:33
in Differentiation of intraoral ulcers. Cohen, Sirois, Sollecito, 5:112
Evolving strategies in operable breast cancer. 1. Noninvasive or occult malignancies. Deckers, Ricci, 9:103
Evolving strategies in operable breast cancer. 2. Palpable tumors. Deckers, Ricci, 9A:29
Follow-up and care of childhood cancer survivors. Meadows, 2:99
Hypercalcemia of occult origin. Odell, 2A:31
Localization of the early-onset breast cancer gene. King, 10:121
Penile cancer: curable with early detection. Rotolo, Lynch, 6:131
in Radiating leg pain in the older patient. Thorne, Curd, 3:62. *See also* letters 6:18, 9:10
Radiculopathy in an elderly woman. Banitt, Eng, 2A:40

NEUROLEPTIC MALIGNANT SYNDROME
73-year-old woman with confusion, rigidity, and fever. Altus, Weissman, Hencey, 6:97

NEUROLOGIC DISORDERS
Botulinum toxin A therapy in dystonia. Adler, 8:35
Cases that teach clinical reasoning. Kassirer, Kopelman, 1:29
Elderly woman with recurrent meningitis. Wallach, Altus, 7:58
Evaluating the sleepy patient. Varon, Jones, 10A:55 (1990). *See also* letter 2A:12 (1991)
Gait disorders in the elderly. Caranasos, Israel, 6:67
Irritability and fever in a nine-week-old infant. Maupin, 4A:40
Mediators of meningitis: therapeutic implications. Sáez-Llorens, McCracken, 1:68
Neurologic presentations in Lyme disease. Coyle, Schutzer, Sanford, Baringer, 11:55
New concepts in Parkinson's disease. Sweeney, 4:84
Radiating leg pain in the older patient. Thorne, Curd, 3:61. *See also* letters 6:18, 9:10
Reflex control in heart failure: a primer for physicians. Buchter, Thames, 6:119

73-year-old woman with confusion, rigidity, and fever. Altus, Weissman, Hencey, 6:97

NEUROTRANSMITTERS
in Excitation-contraction coupling in heart failure. Lakatta, 7:86
New concepts in Parkinson's disease. Sweeney, 4:84

NSAIDS
Actions of NSAIDs. Weissmann, 8:60

O

OBSTETRICS
Group B streptococcus infection in mother and child. Haft, Kasper, 12:111
HIV infection in maternal and pediatric patients. Wilfert, 5:55

OCCUPATIONAL DISORDERS
Reducing occupational risk of HIV infection. Gerberding, 6:103

ONCOGENES
in Cancer genetics and the human genome. Bodmer, 10:111

ORAL LESIONS
Differentiation of intraoral ulcers. Cohen, Sirois, Sollecito, 5:101

OSTEOPOROSIS
Bisphosphonate therapy for osteoporosis. Attie, 3A:87
Hyperparathyroidism, estrogens, and osteoporosis. Avioli, 1:115
Prevention of osteoporosis. Levin, 5:77. *See also* letter 9A:19

P

PAIN
Radiating leg pain in the older patient. Thorne, Curd, 3:61. *See also* letters 6:18, 9:10

PANCREATIC DISORDERS
in Adenocarcinoma of the liver without detectable primary. Abbruzzese, Carbone, 12:61

PARASITIC INFECTIONS
Acute and chronic schistosomiasis. King, 3:117
Caribbean traveler with diarrhea and abdominal distention. Fonte, 1:163

PARKINSONISM
in Gait disorders in the elderly. Caranasos, Israel, 6:80
New concepts in Parkinson's disease. Sweeney, 4:84
73-year-old woman with confusion, rigidity, and fever. Altus, Weissman, Hencey, 6:97

PAST AND PRESENT (Bendiner)
Beijerinck and his "filterable principle." 4A:69
Champion of the helpless in our midst. (Dorothea Dix), 1:139
Economo: the daring young man's flight from the clouds to the brain. 5:133
John Hughlings Jackson and the evolution of modern neurology. 11:189
Karl Landsteiner: dissector of the blood. 3A:93. *See also* letter 6:18
Tukes: a genealogy of compassion. 6:143
William Heberden: father of clinical observation. 7:103

PEDIATRICS
To circumcise or not. Synder, 1:201
Cocaine exposure in a newborn. Tichenor, Ahn, Lazerson, 8:31
Extreme tachycardia in a kindergartner. Hancock, 11:49
Follow-up and care of childhood cancer survivors. Meadows, 2:99
Group B streptococcus infection in mother and child. Haft, Kasper, 12:111
HIV infection in maternal and pediatric patients. Wilfert, 5:55
One child, two homes, two cultures. Cottrill, Engelberg, 8:123
Sudden death in the young. Garson, 6:51. *See also* letter 9:10
Unusual cause of fever in a newborn infant. Dowell, Musher, 12:40
Young boy with a limp. Weiner, 10:228

PENICILLIN
Long pause: the discovery and rediscovery of penicillin. Weisse, 8:93

PENILE CANCER
Penile cancer: curable with early detection. Rotolo, Lynch, 6:131

PHARMACOLOGY *see also* ANTIMICROBIAL THERAPY; ANTIRETROVIRAL AGENTS
Actions of NSAIDs. Weissmann, 8:60
AIDS, activism, and ethics. Rothman, Edgar, 7:135
Drug interchanges at the pharmacy: safe for cardiovascular disease? McCue, 7:23
in Migraine: current approaches to diagnosis and management. Solomon, 4:158
Steroid use in surgical patients. Goldmann, 9A:54

PHLEBOTOMY
in Many faces of hemochromatosis. Weintraub, 4A:57. *See also* letter 9A:19

PHYSICAL EXAMINATION
Accuracy of clinical information: 2. The physical examination. Kassirer, Kopelman, 5:17

PHYSICIAN PLACEMENT SERVICE
MDs Pro Bono. (letter) Merritt, 3:13

PHYSIOLOGY IN MEDICINE: MODERN ASPECTS OF CONGESTIVE HEART FAILURE
β-Adrenergic signaling pathway in the heart. Homcy, 5:43
Contractile protein alterations in heart failure. Lindemann, 12:47
Energetics and the failing heart. Katz, 8:78
Excitation-contraction coupling in heart failure. Lakatta, 7:85
Introduction: modern aspects of congestive heart failure. (editorial) Andreoli, 4:7
Myocardial remodeling and pathologic hypertrophy. Weber, Brilla, Janicki, 4:73
Peripheral circulatory response in cardiac failure. Le Jemtel, Katz, Sonnenblick, 9:75
Reflex control in heart failure: a primer for physicians. Buchter, Thames, 6:119
Therapeutic strategies for CHF in the 1990s. Smith, Kelly, 11:127

PHYSIOLOGY IN MEDICINE: PULMONOLOGY
α_1-Antitrypsin deficiency: pathogenesis and treatment. Crystal, 2:81
Electrolyte transport in the lungs. Berger, Welsh, 3:53
Pulmonary surfactant system. Caminiti, Young, 1:87

PLATELETS
in Raynaud's disease: an update. Varon, Gasman, 1:158

PNEUMOCYSTIS CARINII
in Current status of HIV therapy: II. Opportunistic diseases. Feinberg, Hoth, 3:106
in HIV infection in maternal and pediatric patients. Wilfert, 5:59

POLYMERASE CHAIN REACTION
in HIV infection in maternal and pediatric patients. Wilfert, 5:58

PREVENTIVE MEDICINE
in Group B streptococcus infection in mother and child. Haft, Kasper, 12:111

PROBLEM PATIENT, THE
Acute illness in an elderly man with aphasia. Gilbert, Shocket, 6:229
Alopecia and rash in a chronically ill woman. Warner, Gresh, 3A:47
Antibiotic-resistant pneumonia in a hemophiliac with AIDS. Reves, Musher, 1:81
Ascites in a woman with chronic mitral stenosis. Litam, Smaha, 5A:35
Back pain and weight loss in a man with a history of sepsis. Le, 9:53
β-Blocker overdose in an LPN. Oppenheim, 12:31
Cardiac arrest in an on-call intern. Kinney, 2:119
Caribbean traveler with diarrhea and abdominal distention. Fonte, 1:163
Case of the migrating embolic filter. Patel, Cholankeril, 4:129
Chest pain in a cancer patient on chemotherapy. Fonte, Cardello, 7:145
Child with spherocytic anemia. Murphy, Dracker, 6:29
"Classic case of Crohn's disease." Jenckes, 1:208. *See also* letter 5A:30
Cocaine exposure in a newborn. Tichenor, Ahn, Lazerson, 8:31
Common disease and uncommon complications. Turcios, Nejat, 4:163. *See also* letter 5A:30
Elderly woman with abdominal pain and vomiting. Flores, 5:72
Elderly woman with recurrent meningitis. Wallach, Altus, 7:58
Febrile infant with respiratory distress. Agarwala, London, Hecht, 3A:76
Fever and a neck mass in a young man. Bazzi, Chandrasekar, 3:94
Hypoglycemia in an elderly woman. Bazzi, Kata, Dixon, Kim, 10:177
Ill woman with SLE who got worse with treatment. Stone, Moore, 12:57
Irritability and fever in a nine-week-old infant. Maupin, 4A:40
Man with a rapid decline in ventilatory status. Smally, 4A:89
Muscle spasms and trismus in an alcoholic. Patel, Masood, Kim, 5:151
Postpartum bradycardia and hypotension. Patel, Isber, Weiner, 9A:20
Radiculopathy in an elderly woman. Banitt, Eng, 2A:40
Reversible complete heart block. Cass, Richeson, Akiyama, 10:51
Seven-year-old girl with pubic hair: premature adrenarche or not? Schindler, 1:53
Severe flank pain in an intravenous user of cocaine. Ravetz, 11:91
Shock in a woman with chronic pain. Torres, Altus, 4:37
Subcutaneous nodules in a diabetic woman. Winkler, Wernick, 4:121
Tennis player with a swollen calf. Gilbert, Ansari, 11:211
Two patients and one problem. Ansari, Laxdal, 2:111
Unilateral pulmonary edema in recurrent

pneumothorax. Hannallah, El-Amir, 5:143
Unusual cause of fever in a newborn infant. Dowell, Musher, 12:40
Vitamin-resistant anemia in a young woman. Staszewski, 9A:91
Weakness, fatigue, and hyponatremia (x2). Bazzi, Kellogg, 11:43
73-year-old woman with confusion, rigidity, and fever. Altus, Weissman, Hencey, 6:97
Young boy with a limp. Weiner, 10:228

PROSTAGLANDINS
Actions of NSAIDs. Weissmann, 8:60

PROSTHETIC DEVICES
Case of the migrating embolic filter. Patel, Cholankeril, 4:129
Erectile dysfunction in diabetes. Broderick, Schwartz, 8:139
Mitral valve surgery: replacement vs reconstruction. Cohn, 8:49

PSYCHIATRIC DISORDERS
Recognition of delirium. Inouye, 4A:61
in Recombinant erythropoietin and chronic renal failure. Lundin, 4:67

PULMONARY EMBOLISM
Managing pulmonary embolism. Goldhaber, 9:37

R-S

RAYNAUD'S DISEASE
Differential diagnosis of Raynaud's phenomenon. Wigley, 7:63
Raynaud's disease: an update. Varon, Gasman, 1:157

RHEUMATOLOGIC DISORDERS *see also* ARTHRITIS
Subcutaneous nodules in a diabetic woman. Winkler, Wernick, 4:121

SCHISTOSOMIASIS
Acute and chronic schistosomiasis. King, 3:117

SEIZURE DISORDERS *see* NEUROLOGIC DISORDERS

SEPSIS SYNDROME *see* INFECTIOUS DISEASES

SEXISM
"Remarkable" woman. (editorial) Fisher, 7:9

SEXUAL DYSFUNCTION
Erectile dysfunction in diabetes. Broderick, Schwartz, 8:139
Evaluation of sexual dysfunction in women. Harward, 10:53
in Recombinant erythropoietin and chronic renal failure. Lundin, 4:68

SEXUALLY TRANSMITTED DISEASES *see also* GONORRHEA; SYPHILIS
Changing epidemiology of HIV transmission. Holmes, 11:153
Recent developments in STDs: I. Bacterial diseases. Handsfield, 7:47

SHOCK
Shock in a woman with chronic pain. Torres, Altus, 4:37

SLEEP DISORDERS
Evaluating the sleepy patient. Varon, Jones, 10A:55 (1990). *See also* letter 2A:12 (1991)

SODIUM
Weakness, fatigue, and hyponatremia (x2). Bazzi, Kellogg, 11:43

STEROIDS
in Actions of NSAIDs. Weissmann, 8:75
in Allergic rhinitis: a practical approach. Engler, Grant, 1:111
Inhaled steroids for chronic asthma. Toogood, 4A:15
in Mediators of meningitis: therapeutic implications. Sáez-Llorens, McCracken, 1:73
Steroid use in surgical patients. Goldmann, 9A:54

STRESS TESTING
Pharmacologic thallium stress testing. Schwartz, Eisen, 9A:62

SURFACTANT
Pulmonary surfactant system. Caminiti, Young, 1:87

SURGERY
Evolving strategies in operable breast cancer. 1. Noninvasive or occult malignancies. Deckers, Ricci, 9:103
Evolving strategies in operable breast cancer. 2. Palpable tumors. Deckers, Ricci, 9A:29
Mitral valve surgery: replacement vs reconstruction. Cohn, 8:49
Steroid use in surgical patients. Goldmann, 9A:54

SYNCOPE
Cardiac arrest in an on-call intern. Kinney, 2:119
Sudden death in the young. Garson, 6:51. *See also* letter 9:10
Syncope after cardioversion. Ridgeway, Hancock, 9:13
Young woman with syncope and an abnormal ECG. Hancock, 1:169

SYPHILIS
Mercury finally "makes it." Weisse, 10:233
in Recent developments in STDs: I. Bacterial diseases. Handsfield, 7:51

T

TENNIS LEG
Tennis player with a swollen calf. Gilbert, Ansari, 11:211

TESTING AND SCREENING
AIDS: guidelines and deadlines. (editorial) Bukantz, 8:15. *See also* letters 11:11
Disease gene identification: ethical considerations. Wexler, 10:145

THALLIUM
Pharmacologic thallium stress testing. Schwartz, Eisen, 9A:62

THROMBOEMBOLIC DISORDERS *see also* MYOCARDIAL INFARCTION
Case of the migrating embolic filter. Patel, Cholankeril, 4:129
Hypercoagulable states: new knowledge about old problems. Moake, 3A:31
Managing pulmonary embolism. Goldhaber, 9:37
Tennis player with a swollen calf. Gilbert, Ansari, 11:211

THROMBOLYTIC THERAPY
Acute inferior injury: will it be reversible? Hancock, 5:145
in Managing pulmonary embolism. Goldhaber, 9:42

TUBERCULOSIS
Tuberculosis: a disease of the 1990s. Bernardo, 10:195

U-V

ULCERS
Differentiation of intraoral ulcers. Cohen, Sirois, Sollecito, 5:101
Endoscopy in upper GI bleeding. Stillman, 2A:17
Helicobacter pylori and duodenal ulceration. Lind, Blaser, 2A:45

UROLOGIC DISORDERS
To circumcise or not. Synder, 1:201
Erectile dysfunction in diabetes. Broderick, Schwartz, 8:139
Group B streptococcus infection in mother and child. Haft, Kasper, 12:111

VACCINATION
New measles epidemic. (editorial) Connor, 4A:8
Prospects for AIDS vaccines. Koff, 4:99

VASCULAR DISORDERS *see also* THROMBOEMBOLIC DISORDERS
Aortic dissection: diagnosis and management. Neerukonda, Vijay, Jantz, Schoonmaker, Saxena, 2A:66
Differential diagnosis of Raynaud's phenomenon. Wigley, 7:63
Febrile infant with respiratory distress. Agarwala, London, Hecht, 3A:76
in Intensive management of type II diabetes. Duckworth, 5A:67
Peripheral circulatory response in cardiac failure. Le Jemtel, Katz, Sonnenblick, 9:75
in Radiating leg pain in the older patient. Thorne, Curd, 3:64. *See also* letters 6:18, 9:10
Raynaud's disease: an update. Varon, Gasman, 1:157

VERAPAMIL
in Drug interchanges at the pharmacy: safe for cardiovascular disease? McCue, 7:24

VIRAL INFECTIONS *see AIDS: PROBLEMS AND PROSPECTS*; HIV

W

WHEN TO REFER
Endoscopy in upper GI bleeding. Stillman, 2A:17
Evaluation of sexual dysfunction in women. Harward, 10:53
Pharmacologic thallium stress testing. Schwartz, Eisen, 9A:62
Transtelephonic monitoring of sporadic arrhythmias. Doherty, 5A:11

WOLFF-PARKINSON-WHITE SYNDROME
Sudden death in the young. Garson, 6:51. *See also* letter 9:10

X-Y-Z

X CHROMOSOME
Physician-laboratory interface in X-chromosome mapping. Caskey, 10:131

YEAST
Why yeast? Botstein, 10:157

ZIDOVUDINE
Current status of HIV therapy: I. Antiretroviral agents. Hoth, Myers, 1:174
in HIV infection in maternal and pediatric patients. Wilfert, 5:58
